

## Fylax® Forte-HC liquid

### Product Data Sheet

#### General

Fylax Forte-HC liquid is a synergetic blend of organic acids and surfactants. It is produced using a production technology creating activated propionates held on micelles. The activated propionates effectively reduce moulds to guarantee the nutrient value and prolong the shelf life of raw materials, animal compound feed. The surfactants in Fylax Forte-HC liquid have the ability to lower the surface tension of water. Fylax Forte-HC liquid improves its anti-mould effect as well as feed mill efficiency.

#### Main Ingredients

- 1,2-Propanediol
- E200 Sorbic acid
- E236 Formic acid
- E260 Acetic acid
- E270 Lactic acid
- E280 Propionic acid
- E284 Ammonium propionate
- E484 Glyceryl polyethyleneglycol ricinoleate
- Pure distilled coconut/palm kernel fatty acids from splitting

#### Specification

- Color: Yellow-brown
- Appearance: Liquid
- pH: 5.9 – 6.5
- Specific gravity: 1.050 – 1.080

#### Recommended dosage for use

Fylax Forte-HC liquid application advice:

- Compound feed: ≤13% moisture, shelf life <3 months: 0.5-1.5 kg/ton
- Raw material: whole corn / wheat / barley / rye / peas: see table

Raw material treatment: whole corn / wheat / barley / rye / peas using Fylax Forte-HC liquid [ in kg / ton ]			
Moisture level %	Shelf life (Months)**		
	1 to 3	4 to 6	7 to 12
≤13	0,7	0,8	1,2
14 -15	0,8	1,2	3
15 - 16	1	1,5	4
16 - 18	2	2,5	5
18 - 20	3	4	6
20 - 22	3,7	5	7
22 – 24	4,5	6	8
>24	Not recommended		

\*\* Advice to increase dosage level in raw materials:

- With 10% when cereals have high levels of moulds upon arrival.
  - With 10% when sand and chaff or dust is still in the raw materials.
  - With 10% when no aeration is possible inside the silo.
- Note: Fylax Forte HC does not prevent structural damage by insects/pests.

Depending on the occurrence of insects an additional treatment with an insecticide may be necessary.

For specific information or application advice consult your local technical representative.

## Authorisation

Selko B.V. certifies herewith that the product complies with the EC admission standards; therefore the product can be sold freely in The Netherlands and exporting countries.

Selko B.V. is an approved feed-establishment, registration number: αNL 15256.

## Safety

Applicable safety information can be found in the Safety Data Sheet.

## Storage

Storage: Above 0°C.

Shelf life: 2 years after production date based on advised storage conditions.

## Packaging

Liquid products are generally available in:

- Cans of 25 kg
- Vessels of 225 kg
- IBC of 1000 kg
