

Selko® Alpha

Product Data Sheet

General

Selko Alpha is a synergistic blend of free and highly buffered organic acids which is applied in water. The synergistic blend of free organic acids effectively reduces pH of water and the stomach, thereby supporting feed digestion. Buffered organic acids help to maintain a healthy microbial balance in the intestine.

Main Ingredients

- Copper (Copper sulfate pentahydrate)
- Zinc (Zinc acetate dihydrate)
- Formic acid
- Sodium formate
- Acetic acid
- Propionic acid

Specifications

- Colour: Blue
- Appearance: Liquid
- pH: 2.7 – 3.3
- Specific gravity: 1.187 – 1.217

Directions for use

Water titration is advisable to check the water buffer capacity and to obtain the optimum pH 3.8 for water. For this and other advice please contact your Trouw Nutrition representative.

Dosage Selko Alpha	
Broiler chickens	1-2 l /1000 l
Broiler breeders	1-1.5 l /1000 l *
Laying hens	1-1.5 l /1000 l *
Turkeys for fattening	1-1.5 l /1000 l *

*Start with 0.3 l /1000 l water and increase the rate by 0.3 l /1000 l every two days, while monitoring water intake until the optimal water pH 3.8 is reached. This is especially important for birds that are already in the production cycle.

Authorisation

Selko B.V. certifies herewith that the product complies with the EC admission standards; therefore the product can be sold freely in The Netherlands and exporting countries.

Selko B.V. is an approved feed-establishment, registration number: αNL 15256.

Safety

Applicable safety information can be found in the Safety Data Sheet.

Storage

Storage: Store above 0°C.

Shelf life: 2 years after production date under proper storage conditions.

Packaging

Liquid products are generally available in:

- Cans of 25 kg
- Vessels of 225 kg
- IBC of 1000 kg
